The Federal Trade Commission could establish a record by having some real investigations if they like Barkis "was willin'."

Colonel Bailey, of the Houston Post, is very silent regarding the surrender of the Walker County sausages to the Bay City strawberries. Is it possible that the "Wharton subscriber" has intervened? Let us have peace.

When the politicians at Washington get through with us on their extravagance and big tax platform we will sing and whistle as we give them our last coat for part payment. Summer is coming anyway and we do not need a coat. Fish do not bite freely when the angler wears too much coat.

So far as real production, labor and efficiency is concerned nearly all Europe is said to be on a strike. Europe is only producing enough to run it 107 days out of a possible 365. The United States is running very close to the precipice and cannot afford to send the beggars, grafters and loafers of Europe any more food, clothing and money as charity. It is not charity to give loafers temporary relief.

To receive its full share of state and federal aid in great national road building program now pending in the United States, Brazos County must have a countywide bond issue from \$1,000,000 to \$2,000,000 for good road building. This is necessary to secure in the future the maintenance funds that will come under the Shepard bill. Precinct or special road bond issues will not meet the requirements. The State Highway Commission desires roads that begin somewhere and end somewhere. After all the maintenance proposition is one of the greatest in road building.

Speaking of the curse of the tip habit and high price of millinery we recall we once met a man on an ocean steamer on his way to Europe and he said: "I paid \$14 for the hats I am to wear for the trip and my wife paid \$89.98. Quite a great difference." This was at Gibraltar. Five months later we met him at Queenstown and asked him how much his hats cost him. "Why," he said, "its an outrage. The tips on my hats to meals cost me \$103. My wife paid nothing—she kept on her hat." Things are not always as they seem.

Our philosopher friend, Perry Periwinkle, writes us from his fishing camp down near Galveston: "When one now has the 'pep' and producing the goods under the blanket system and another beside him has no 'pep' and is doing little or nothing except drawing his breath and his salary, the first man should slow down. That is the way to raise prices and salaries and cut down production. I am opposed to the rule to pay men for the work they do (because I couldn't get by) but I am in favor of paying them for just being around. All men are born free and equal and there should be an equal division of everything without any extra effort. The only

thing that worries me is that I may live thirty or forty years and there will be nothing to eat or wear and the people may have to starve, freeze and go naked. Otherwise my scheme is all right. I caught four fish yesterday and they got away. I must send to Galveston for some fish I can buy in the market at three times the price I bought them for last spring. Au revoir."

Since we have read the Dallas-Galveston News declaring that the editor of the Eagle must be a demagogue and defend the stray dog to be popular the more we see the need of a "Fever Dog and More Hog Club in Texas." The News states that Dr. Bizzell is expected to be against worthless stray dogs but a newspaper editor to be real "popular" must be for everybody and everything on earth—except himself. This is a day of new doctrines and we must have help to save the world from the menace of the worthless, stray dogs that spread hydrophobia and eat up the lambs and the chickens. Help us!

Dr. W. M. Anderson, pastor of the First Presbyterian church of Dallas, and one of the learned pastors of the South has written a splendid article on "matrimony" in the Dallas News and asks, "Get Married? Why? Who? When?" During all the ceaseless ages, even before the morning stars sang together over the Judean hills; when the earth was in darkness and desolation, in storm and in shadow in light and sunshine, in war and peace, no man has ever yet been able to offer a solution for any part of the matrimonial problem. Men may come and men may go, white, black and yellow, red, rich and poor, great and humble; kingdoms, governments and principalities may rise and fall but just "who, how and when?" the people should marry is the newest subject in all the world, the past, present and future. In fact they will marry whenever the notion strikes them. There is but one thing that will prevent this—the end of the world. Nevertheless the Eagle appreciates Dr. Anderson's splendid contribution to the world.

The Houston Post of March 12, 1895, "Twenty-Five Years Ago," says: "Advertisement: The best \$3 Men's Shoes in the market. Every pair contains a paid up Accident Insurance policy for \$100, good for 90 days." Achenbach & Schulte." The Eagle used to charge 7-12 cents for its advertising space, but since a \$3 shoe has gone to \$16.98 we have to charge a little more. An unwise business the other day said he could not afford to advertise except at the old 1895 rate. He will of course in the end be forgotten. Owls and bats will roost in his store and he will be buried into oblivion face, downward beyond the hope of resurrection. It is the inevitable.

The Chicago Evening Post in giving the details of the meeting of the American Bureau of Farm Federation in speaking of the views of the delegates present said: "Prof. H. L. McKnight, a delegate from Nacogdoches, Texas, said the organization of the federation is, in his opinion, the biggest experiment the world ever has seen. 'Rural America must be rejuvenated,' he added, 'and this organization is the one to do it. Economic injustice is crushing the farmer and social starvation is driving the boys and girls from the countryside. These twin evils must be done away with.' Mr. McKnight is now secretary of the Chamber of Commerce at Nacogdoches and represented the A. and M. College at the Federation meeting in Chicago.

"Texans Can Buy Cheaper Pork in May," is a newspaper headline. Pretty good—but who wants any pork in May? We would prefer Bay City strawberries and cream.

The Eagle believes its own business and it believes every other person should believe in their business and give their best efforts for its success.

"Bill" Bryan says he is not a candidate for the presidency before the San Francisco convention but like

Barkis "is willin'." "Bill" Hobby and "Bill" Poindester, of Texas, will contest for leadership at San Francisco and if they win they can take "Bill" Bryan if they choose and put him over. We need a few more "bills" in this country as it seems shoes are going to \$60.00 per pair and a thirty cent strip of bacon to three dollars.

Europe seems to prefer to fight and starve rather than to work and prosper. We have some wonderful propositions to consider.

The Houston Post, March 15, 1895, "Twenty-Five Years Ago" said: "Mrs. J. W. Doremus of Bryan is visiting Mrs. A. M. Gentry."

The Waco-News Tribune asks: "Why worry over the new fangled propositions?" Why worry at all. There is another word that begins with W.—work. Try that.

"Flume is suffering for food," is the newspaper headline. Flume has money for guns, powder and lead but nothing to buy wheat and meat with. Europeans generally are playing the war-game to their own destruction.

"Bill" Poindester and "Bill" Hobby will lead the Bailey-Wilson contest in Texas in the May primaries for delegates-at-large to San Francisco. Please put a few more bills on the ticket. The H. C. L. makes it necessary to have more bills.

A delegation of Franklin citizens will attend the regular meeting of the State Highway Commission, at Austin, next Monday for the purpose of securing additional aid for the highway from Bremond-via-Franklin-Wheeler to the Brazos county line.—Franklin Texan.

There are 400,000 men in France on a strike. France is only producing enough to feed and clothe the country 107 days out of 365. France is a decaying nation. France must produce or die and no country should live that will not work. It is not charity to give to those who refuse to labor. It is criminal.

The Hopkins County Echo (Sulphur Springs) Says, "Editor Lee J. Rountree in the Bryan Eagle is opposed to the establishment of a new West Texas A. and M. College and so is the Echo. The state has more schools now than there are funds to support creditably. When the time comes the West Texas Chamber of Commerce will have answered Editor Rountree's arguments or give up the proposition."

VISITED STEEP HOLLOW ON CHURCH MISSION

(From Monday's Daily)
After the Sunday school hour Sunday morning, Messiaens Geo. A. Adams, W. S. Howell, A. J. Buchanan and Miss Madama Ball, visited the church at Steep Hollow for the purpose of interesting the ladies of the church in the organization of a ladies auxiliary. Sunday school was just closing when the party arrived and a large number of the people of the community were present. It being the day for the regular church services, the pastor, Rev. Smith, and the members of the congregation received the visitors very cordially and invited them to lay the plans before the congregation which was done by Mrs. Buchanan and Mrs. Howell, who fully explained the work of the ladies auxiliary, its relation to the regular work of the church, its vast importance to the church and the people of the community and how it brings the churches into closer touch and closer relationship. Following the talks by the visitors, several ladies of the community expressed themselves in regard to such an organization and all were unanimous in the conclusion that it would be a splendid thing for the church and the community. Another meeting will be held on next Sunday following Sunday school, at which meeting it is proposed to perfect organization of a ladies auxiliary for the Steep Hollow church.

NOT A SAD DEATH.
Our friend, E. J. Fountain, sent us the following: "Fatal Effect—Yesterday afternoon, he read his copy of The Eagle. Three hours later he died." We were greatly worried about the death until we found that the man did not live in Bryan but in Oshkosh and had whipped his mother-in-law and took a drink of wood alcohol before he read the Eagle. It was the Brooklyn Eagle and the notice was clipped from the Literary Digest. The death of the man was not sad at all under the circumstances.

EDITOR BAGWELL FOR DR. BIZZELL

Editor J. S. Bagwell, of the Hopkins County Echo says: "Editor Rountree of the Bryan Eagle says he is for President Bizzell of the A. and M. College for Governor if Dr. Bizzell will offer for the place. That is not a bad choice."

MR. BEASON DRAINING IN NACOGDOCHES COUNTY

(Redlands Herald)
The terracing campaign planned by the Nacogdoches Chamber of Commerce through the leadership of H. L. McKnight, secretary, is progressing splendidly.

C. L. Beason, farm terracing and drainage specialist, for the Owensboro Ditcher & Grader Co., Owensboro, Ky., reports the keenest interest is being taken in these field meetings and demonstrations.

At Sacul on Monday there were twenty-five to thirty present, some farmers spending the entire day watching the progress of the work. At Garrison on Tuesday there were more than forty people present to see the work and thereby gain information with which they would be the better prepared to solve two important farm problems—terracing and drainage.

Professor Welborn, teacher of vocational agriculture in the Garrison school, brought his pupils out to see the terracing demonstration and to give them an opportunity to learn something of the "mysters" of the farm level.

One fourteen year old school boy mounted the Martin ditcher and handled it to the entire satisfaction of those present. This boy will, evidently, study his agriculture in the future from a more practical viewpoint.

All farmers present at these meetings agree, says Mr. Beason, that soil erosion is a gigantic economic loss not only to the farmer but also to the business interests of the country as well. However after seeing the processes of terracing and drainage simplified the farmers declare their intention to give more consideration in the future to terracing and drainage—two essentials to soil conservation and soil efficiency, or productivity.

Mr. Beason says he is not only glad to come back to Nacogdoches county and lend assistance in this terracing campaign, but that he has been agreeably impressed with three conditions in striking contrast to what they were in 1898 when he moved away from this country: More attractive rural homes and better live stock, splendid roads being built and maintained, and, last, but not least the change from an old inactive historic town to the progressive and bustling city which already reflects credit on the builders.

TEXAS CONGRESSMAN SAYS IT PAYS TO ADVERTISE

Washington, March 12.—It pays to advertise in The Star-Telegram. There is no doubt of that. Representative Fritz G. Lanham testified to this effect today to his congressional colleagues from Texas.

A few days ago The Star-Telegram printed a dispatch that Lanham had a surplus supply of Federal garden seeds intended for distribution to Fort Worth constituents who desired same. He requested they notify him. "My mail yesterday brought me 100 requests from Fort Worth territory outside of my congressional district," Congressman Lanham said. "From Fort Worth there were several hundred. This morning's mail had fifty requests from Fort Worth. Then I stopped counting.—Special to Ft. Worth Star-Telegram.

The Eagle was recently sent a few mail sacks of garden seed by Congressman Hardy and a notice was placed in the paper to that effect. The supply was exhausted two weeks ago and we still have calls for garden seed and certainly it pays to advertise.

The Brazos County Red Cross Chapter publishes the following important statement in regard to War Risk Insurance:

The only conditions are, (1) Two months premium on the amount of insurance to be reinstated must accompany the application; (2) The applicant must be in as good health as at the date of his discharge or at the

BIG PROFIT IN MILK AND BUTTER

Small Investment Brings Big Return. Mr. Weaver's Plan is Simple.

"I bought a package of Dr. LeGear's Stock Powders from my local dealer and after feeding it to my Jersey Cow, she increased from 6 quarts to 12 quarts of milk per day, and after continuing on for 30 days longer, she increased in butter fat from 5 pounds to 10 pounds per week, and at the end of 5 months, she was making 12 pounds of butter fat per week."
—L. B. Weaver, Grand Rapids, Mich.
Mr. Weaver followed the advice of Dr. LeGear, Graduate Veterinary Surgeon of 27 years experience, and is money ahead. Here is the Doctor's offer to you: Get a package of Dr. LeGear's Stock Powders from your dealer; feed it to your horses, milk cows, steers, hogs and sheep as per direction and after a thorough trial, if results are not satisfactory, just return the empty carton to your dealer and your money will be cheerfully refunded.—Dr. L. DISLOYALTY ACT UNCONSTITUTIONAL

(By Associated Press)
Austin, March 17.—The Texas disloyalty act was held unconstitutional by the court of criminal appeals because its attempts to prohibit disloyal utterances while the United States is at war, "impinges upon the exclusive domain of federal legislation and is in violation of section 8 of our bill of rights."

666 quickly relieves Colds and La-Grippe, Constipation, Biliousness, Loss of Appetite and Headaches.

In the affairs of life there are three great cardinal necessities: (1) Willingness to succeed; (2) efficiency; and (3) loyalty. But the greatest of these is loyalty.

Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

FEDERAL HOME LOAN OPENED FOR SOLDIERS

(By Associated Press)
Washington, March 12.—Creation of a federal corporation to loan up to \$4,000 to soldiers at low interest and on long time payments, for home building, was urged by Representative Morgan of Oklahoma today before the Ways and Means Committee, considering soldier beneficial legislation. Morgan declared the so-called "Morgan bill" will prove of vast benefit to the nation in that it will encourage thousands of citizens to acquire homes. This plan appeals to thousands of soldiers, he said. "I have received many thousand letters of endorsement from all parts of the country. Many soldiers want to know when my bill will become law in order that they can acquire homes at beneficial terms. The Oklahoma Congressman declared financing of the proposition will not be difficult and it will be self-sustaining."

Texas veterans of the World War who were wounded and disabled and have not received a square deal from the Federal Board for Vocational Education were requested today by Representative Parrish to file complaints with him at once in order that this data may be submitted to the House Committee on Education which will Friday begin an investigation of the failure of the board to function for the benefit of soldiers as was intended by congress.

Congressman Parrish has already forced the board to rule favorably for Texas soldiers after the Dallas office had decided against wounded men on grounds that they were not sufficiently disabled to receive federal assistance. "Soldiers who have not had a square deal should communicate with me at once," Parrish said, "and I will force action where possible." Parrish likely will be a witness before the investigating committee.

NEW AMENDMENT TO ARTICLE TEN

Washington, March 17.—Following the introduction by republicans of a new reservation to the treaty, intended to replace the more definite international pledges of Article 10, claims are made of further gains for ratification with the republican qualification attached. The new reservation declares the United States views "with grave concern" a threat against the peace of Europe.

CONGRESSMAN EAGLE ATTACKS WOMEN

(By Associated Press)
New York, March 16.—A letter from Congressman Joe H. Eagle of Texas declaring "women's chief work in Houston should be making one good man a good wife and properly rearing a family of children," caused a mild sensation today at a luncheon of the Woman's Chamber of Commerce, a national organization of professional and business women. The letter was the only "adverse reply" received from more than a score of governors and officials.

"Congressman Eagle seems to have forgotten that men have ruled the world ever since the name of Adam and we all know the terrible mess they have made of it," Mrs. Kahterin Clemmons Gould, founder of the organization, told the gathering of several hundred women. "We are, some of us, denied the privilege of being able to find or marry that good man, and we must not count on them any longer, but we must get right down to business alongside the men."

TEN BARRELS OF ALCOHOL STOLEN.

(By Associated Press)
Marshall, Tex., March 16.—Last week the Texas & Pacific Railway Company lost a shipment of ten barrels of alcohol from a car that has not yet been located. The alcohol was shipped from New Orleans to Dallas to a drug company. The alcohol was put into a freight car, which was properly sealed and started to Dallas. When the car reached Dallas and was opened the ten barrels of alcohol were gone and no trace of it could be found anywhere.

BROGDON-MIMS.

Miss Zora Mims of this city was united in marriage on last Thursday night in Houston to Mr. M. H. Brogdon of Oil City, La. Miss Mims was in Houston on a visit at the time and met the groom there and they were married. The wedding was a great surprise to her relatives and friends as she had taken none of them into her confidence and the first intimation they had was a letter announcing her marriage. The bride is a daughter of Mrs. J. W. Barron and was raised in this city. She is a young lady of charming personality, educated, refined and has many friends. The groom is a son of Mrs. George Brogdon of this city, but has not lived in Bryan in a number of years. The Eagle was not able to learn where they will make their home.

GRANDVIEW FIRE SUFFERERS

More than 1,000 people were made homeless by the Grandview fire of Sunday. Many lost their life savings. The little city was wiped out and the property loss was \$1,000,000. Many people are in need. The call comes to humanity for aid. If any citizen of Bryan and Brazos county wishes to contribute any amount voluntarily, the Eagle will be glad to report the amount and send it to the relief committee at Grandview.

\$25.00 SHOES PREDICTED SOON

Kansas City, Mo., March 16.—Popular priced shoes that sold for \$6 in 1913 will retail this fall at \$25. News of this prospective 25 per cent price boost every present prevailing prices came today from the eighth annual session of the Kansas Retail Shoe Dealers Association. The people seem to be frightened "white and bloodless" by the cry that nothing else will ever be produced. The propaganda is being worked by paid agents everywhere.

The Houston Post of March 17, 1895, St. Patrick's Day twenty-five years ago says: "Representative A. F. Brigrance of Navasota, Senator A. Jack Beal of Ellis, Major W. R. Cavitt of Bryan and Professor Philpott of the Agricultural and Mechanical college were in the city tonight, and paid The Post a pleasant visit." Twenty-five years isn't very long ago. Frank Brigrance is still at Navasota; Jack Beal served twelve years in congress and has moved to Dallas, while Major Cavitt is still a citizen of Bryan and is hale and hearty. The editor of the Eagle knew all of them at that time—and it only seems yesterday.

GRANDVIEW APPEALS FOR ASSISTANCE

(By Associated Press)
Grandview, Johnson county, Tex., March 17.—Mayor V. P. Williams made his first official appeal for outside relief last night. Grandview was practically destroyed Sunday when a million and a quarter dollar fire rendered hundreds homeless.

Is First Public Appeal.

"It is the first time we have asked aid," Mayor Williams said, "but inasmuch as other towns and cities have voluntarily contributed and because we are in so great need of assistance, I am making this public appeal."

Mayor Williams is asking first of all, clothes, bedding and food. Secondly money is needed badly.

Sleep in Tents.

Families from the 100 homes destroyed slept last night in tents furnished by the Cleburne Red Cross. Two hundred additional tents are being sent here from San Antonio. An official of Red Cross headquarters in St. Louis will arrive here tomorrow, and will take charge of the situation. The St. Louis Red Cross official will be assisted by the Johnson County Red Cross, Mayor Williams and other prominent Grandview citizens.

Telephone, telegraph and lighting systems have been partly restored, and Grandview is quickly rising from the charred coals of the fire which left the town in what was at first considered a total loss. Estimates today are that property loss was \$1,250,000.

Debris from the piles of burning stores, homes, schools and churches is being hauled away, and the city is taking on a dignified yet solemn aspect.

Mayor Williams asked The News-Tribune to urge citizens of Waco to contribute clothing, food and money. All donations should be shipped to Mayor V. P. Williams, Grandview, Texas, or to the relief committee.

Cleburne has contributed \$10,030, Alvarado \$1500, Iacasa \$1500 and Burleson \$1000.

Rub-My-Tism is a powerful antiseptic; it kills the poison caused from infected cuts, cures old sores, tetter, etc.

Congressmen must have votes. Hence many congressmen are purely demagogues and are only representing themselves in an attempt to ride to office and stay in. Washington is reeking with inefficiency, extravagance and fully 50,000 people employed there ought to be at home at work at something useful.

COUNTRY GIRLS ARE VICTIMS OF MASHERS

(By Associated Press)
Chicago, March 16.—Alice Clement Faubel, policewoman in Chicago for the last 12 years, and who, during that time has handled hundreds of cases of country girls who drift to the big cities and into trouble, has obtained a 90-day furlough and will invade the small towns and tell girls and their mothers just what a girl may expect who comes alone to the city.

Armed with photographs and court records, she proposes to carry the campaign right to the source of supply and endeavor to stop the adventurous girls before they start for the city.

Mrs. Faubel has three daughters and she has been a terror to the despicable "mashers" who haunt motion picture shows and insult women and girls who are unescorted. She has made hundreds of arrests for this offense.

"Hunting down crooks comes natural to me. I'd rather pinch a crook than eat," she said. "It's the best game in the world."

It is admitted that the policewoman have cleared Chicago of many "lounge lizards" and human skunks who formerly made the streets, theaters and street cars unsafe for a woman or girl at any time.

DISTRICT COURT.

(From Friday's Daily)
The case of Mrs. J. W. English against the City National Bank and M. F. Dansby was called in the district court this morning and a motion was filed by the attorneys for the plaintiff for a continuance. After hearing the arguments of attorneys on the motion, same was overruled by Judge Davis and the case went to trial.

The suit grows out of a transaction between Mrs. English and M. F. Dansby in which Mr. Dansby purchased from Mrs. English the bulk of the property in Bryan and Brazos county inherited by her from her late husband, J. W. English. The papers were all drawn, signed and the transfers made and consideration, amounting to \$75,000 paid. Later Mrs. English filed suit against the bank and Mr. Dansby, the bank being included because a number of shares of the stock of the bank were involved to recover an additional amount as she did not believe she had received full value for her property. The case will be closely contested. The plaintiff is represented by Cole & Cole of Houston, and the defendants by Taliaferro and Armstrong, and Henderson and Ranson.
